FENCE COMPONENTS

POSTS:
4”x4” Treated Pine
2 3/8” x .095 Steel Post

CENTERS:
Describes distance between posts.
6’ tall fence = 8’ centers (standard)
8’ tall fence = 7’ centers (std)

RAILS:
Horizontal 2”x4” treated pine boards attached to posts.
Support weight of Pickets. 3 rails are standard.

PICKETS:
Vertical boards attached to rails. 1”x6” Cedar or 1”x6”
Pre-Stained Spruce. Standard height is 6’. 8’ and 10’ tall
are available

TRIM:
1”x4” Cedar trim piece attached to top face of picket.
Adds beauty and a finished look to fence. 1”x2” Cedar
trim piece also used in some cases where Cap is not
used.

CAP:
2”x6” Cedar board attached to top of fence. Covers the
pickets, posts and rails. Adds beauty, a finished look
and stability to fence.

BASEBOARD:
2”x6” treated pine board placed under the pickets and
attached to posts. Acts as first line of defense to rot,
moisture, and damage from lawn equipment. It will
raise the height of fence 5”-6”.

More options available upon request.
